Labelling

AQ Reason for modification of report

V2: Test Osmolality using tap water added according to customer request.

V3: We included the expected value in the Osmolality result in the analysis performed on the tap water.

Analyses on:Distilled water
EFLI6 EF Osmolality [powdered samples] Method : Internal method

Osmolality	337 (± 40) mOsm/kg H2O	200-330 mOsm/kg H2O
Powder amount for standard dilution (P)	35.0 g	35 g
Water amount for standard dilution (W)	400.2 g	400 ml

Analyses on:Tap water
EFLI6 EF Osmolality [powdered samples] Method : Internal method

Osmolality	310 (± 37) mOsm/kg H2O	200-330
Powder amount for standard dilution (P)	35.1 g	
Water amount for standard dilution (W)	404.1 g	

CONCLUSION (not covered by the accreditation)

Osmolality: Result confirmed by 2-fold determination.

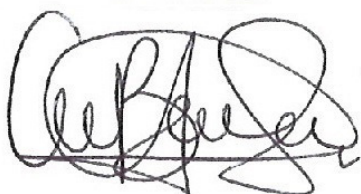

Comment on amendment

Amendments made: New analysis with tap water

Reason for amendments: Customer request

EXPLANATORY NOTE

This document can only be reproduced in full ; it only concerns the submitted sample.

When the laboratory has not been responsible for sampling, the results are applied to the sample as received.

Results have been obtained and reported in accordance with our general sales conditions available on request.

Only results for which a specification or a standard is quoted are taken into account during interpretation.

In order to declare conformity to existing regulations or customer specifications, the uncertainty associated with the result will be added or removed in such a way that the result can be interpreted in any case regarding the specifications or regulations in force. It will not be taken into account in case of standards which already incorporate the measurement uncertainties.

The uncertainties of the results have been calculated (for K=2, with a coverage probability of 95%), and are available to the customer.

The tests are identified by a five-digit code, their description is available on request.

The tests identified by the two letters code EF are performed in laboratory Eurofins CLF Specialised Nutrition Testing Services GmbH .

The tests identified by the two letters code AQ are performed in laboratory Eurofins Análisis Alimentario , S.L.U..
